## **Psychiatric Medical Report**

## Retain a copy for your records

### Please **PRINT** or **TYPE**.

#### **NOTE:** This form is to be completed and signed by a licensed psychiatrist.

This report must confirm the diagnosis and severity of the impairment for reviewers who may not see the patient. Accurate and complete information is crucial to the disability decision. A psychiatric *disability* examination and report differs in content from the usual psychiatric examination and report used for diagnostic and *treatment* purposes. The disability report requires objective clinical evidence, including complete mental status observations. Opinions must be supported by specific clinical observations. The diagnosis should be determined by the clinical findings as observed during the examination and substantiated in this report rather than on history or undocumented conclusions.
