# ENROLL TODAY

# **MERS Defined Contribution Plan**

### **About the Plan**

The MERS Defined Contribution Plan provides you an invested retirement account that you manage, with contributions from you and your employer. Your future retirement benefit is determined by your account balance, which is affected by how much is contributed, the performance of your investments, and how many years you are invested.

This plan is a qualified retirement plan under Section 401(a) of the Internal Revenue Code (also known as a governmental money purchase plan). Unlike a private sector 401(k) plan, governmental plans **require** enrollment and there is not the flexibility to change employee contributions over time. In order to encourage retirement savings many governmental employers also offer a 457 program to employees.

## **Contributions**

Contributions are the amount of money that go into your account each pay period. These can be something your employer contributes toward your retirement as well as what you put in from your own pay check. The rules are generally determined by your employer.

Employer Contributions are typically a fixed amount, or a match of your contributions.

Your Employer Contributions:

**Employee Contributions** can be either required or voluntary. Required contributions are generally taken out pre-tax, which reduces your current taxable income. Voluntary contributions are after-tax and can be changed any time.

Your Employee Contributions:

Check with your employer for contribution rules that apply to you. IRS rules limit the total contributions made to your account, including both your employer's and your contributions.

Our convenient online calculators enable you to estimate what your financial future may look like and help you decide what makes the most sense to reach your goals. Find the 457 Savings Calculator under Resources at www.mersofmich.com.

Who is MERS?

MERS is an independent, professional retirement services company that serves local units of government across the state of Michigan. MERS listens and works in partnership with our members to deliver a superior value that meets our members' needs.

## **Vesting**

Vesting is your eligibility to claim your employer contributions. It is based on a required amount of time you must work (or other service credit) to qualify. Check with your employer to see what that requirement is for your position. Employee contributions; however, are always yours to keep and do not require vesting eligibility to claim after employment.

There are two other types of governmental service credit you may be eligible to use to help you meet your vesting requirements:

MERS-to-MERS and the Reciprocal
Retirement Act (also known as Act 88). If you have been enrolled in another Michigan governmental employer's retirement plan, you may be eligible to use it to help meet this employer's vesting requirement.

# Name Your Beneficiaries

One of the most important things you can do for yourself and your family is to name beneficiaries and keep your information updated. You can update beneficiary and contact information any time by logging into your myMERS account through the MERS website.

**Primary Beneficiary** would receive your *Defined Contribution* portion (plus/minus investment performance). If married, your spouse must be named your *Primary Beneficiary* unless they waive this right in writing.

You'll also be asked to provide Contingent Beneficiary in case your Primary is deceased.

# Investments

While you can't control the markets, you can control where your money is invested. Initially, your money will be invested in an age-appropriate **LifePath** fund to help you put your money to work more effectively toward your retirement goals.

#### How LifePath Target Date Funds Work

First, you select the year you expect to retire.

#### Stocks

(More ups and downs; potential for higher returns over long term)

#### **Early Career**

The fund starts out in mostly stocks where higher gains are expected and the risk of losses can be absorbed over time.

#### Diversifiers >

(Nontraditional assets such as currency, real estate, etc.)

#### **Nearing Retirement Age**

The fund automatically shifts to more bonds. They earn less, but the risk of sudden losses is reduced.

#### **Bonds**

(Lower risk; smaller gains over time)

#### **During Retirement**

Your money stays invested where stable earnings can help offset your withdrawals over time.

You can change your investment allocation online after you sign up for your myMERS account. For more information on your investment options, please visit our website.

### Rollovers

A rollover allows you to move your money from a qualified retirement plan into your MERS Defined Contribution plan, consolidating accounts for easier oversight, compounded savings, and the benefit of MERS' low fees.

The MERS Defined Contribution Plan accepts rollovers from other qualified plans such as other 401(a) plans, supplemental 457(b) plans, individual retirement accounts (IRAs), and other employer provided plans. You do not have to pay any federal income tax on the amount you roll over. Your money will continue to grow tax-deferred until you start to make withdrawals.

- Take advantage of MERS' low fees to maximize savings
- Consolidate information in one easy location
- Visit www.mersofmich.com for more information

#### MERS keeps you connected:

There are a variety of ways to connect with MERS and get the information you want:

- www.mersofmich.com
- myMERS online account access
- Service Center 800.767.6377
- Quarterly statements
- Follow MERS of Michigan on Facebook

- Webinar events
- A gallery of video education
- 1-on-1 Scheduler to speak directly with a MERS retirement expert

You may receive information from Alerus Retirement and Benefits, which has partnered with MERS to provide trading and custodial services for several of our plans, as well as banking services.
