MERS Hybrid Retirement Plan

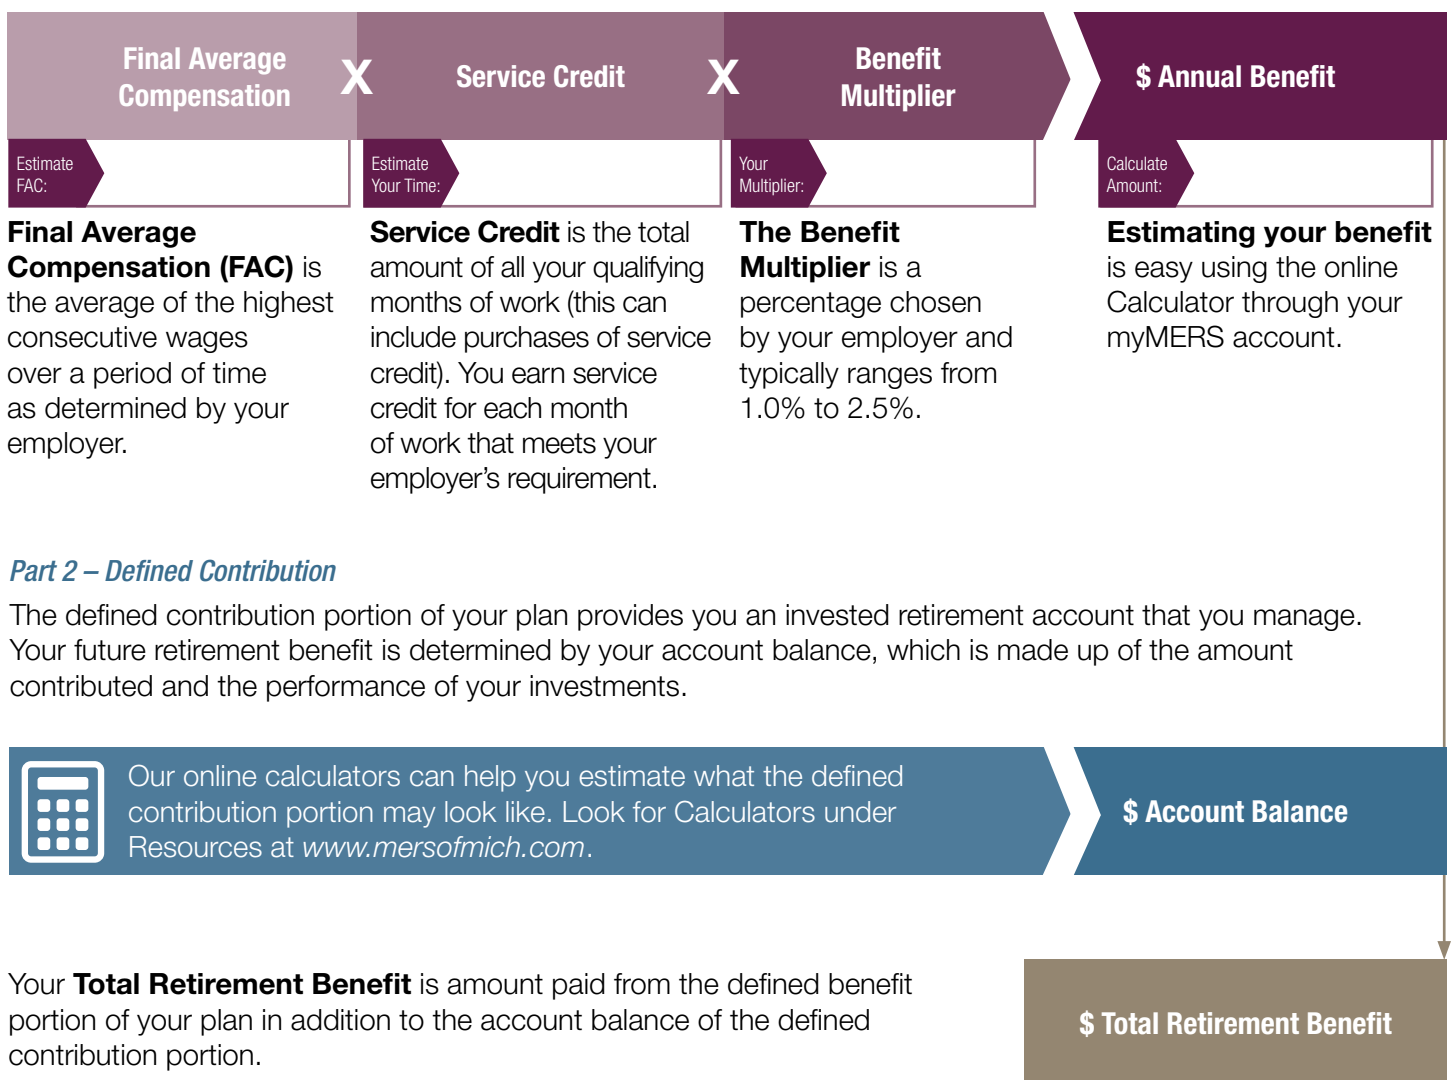

About the Plan

The MERS Hybrid Plan offers two parts in one — the stability and security of a defined benefit Plan (DB), combined with the flexibility and investment choice of a defined contribution Plan (DC). Check with your employer or log in to your myMERS account for the provisions and details that apply to you.

Part 1 – Defined Benefit

This benefit provides you with a **lifetime pension** payment in retirement once you become vested. Your benefit amount will not fluctuate with investment gains or losses; instead, it is calculated based on the formula below.

Who is MERS?

MERS is an independent, professional retirement services company that serves local units of government across the state of Michigan. MERS listens and works in partnership with our members to deliver a superior value that meets our members' needs.

Vesting

Vesting refers to your eligibility to receive a pension benefit when you meet retirement age. It is based on a required amount of time you must work (or other service credit) to qualify. Vesting requirements will differ between your defined benefit and defined contribution portions of the plan. Employee contributions; however, are always yours to keep and do not require vesting eligibility to claim after employment.

There are two other types of service you may have earned from a participating municipality that could help you meet your vesting and early retirement eligibility requirements: **MERS-to-MERS** and the Reciprocal Retirement Act (also known as **Act 88**).

Contributions

Contributions are the amount of money that go into your account each pay period. These can be something your employer contributes toward your retirement as well as what you put in from your own pay check. The rules are generally determined by your employer, and will differ between Defined benefit and defined contribution portions of your plan.

Check with your employer for contribution rules that apply to you. IRS rules limit the total contributions made to your defined contribution portion, including both your employer's and your contributions.

Invest Your Money

While you can't control the markets, you can control where your money is invested. Initially, your money will be invested in an age-appropriate **LifePath** fund to help you work toward your retirement goals.

How LifePath Target Date Funds Work

First, you select the year you expect to retire.

Early Career

The fund starts out in mostly stocks where higher gains are expected and the risk of losses can be absorbed over time.

Nearing Retirement Age

The fund automatically shifts to more bonds. They earn less, but the risk of sudden losses is reduced.

During Retirement

Your money stays invested where stable earnings can help offset your withdrawals over time.

You can change your investment allocation online after you sign up for your myMERS account. For more information on your investment options, please visit our website.

MERS Helps You Become Retirement Ready

myMERS Account offers you secure access to your account information, calculators, webinars, and other resources to help you stay on the right retirement track. Visit www.mersofmich.com or download the app.

MERS Service Center is available to assist you with your questions at **800.767.6377** or send us a private message through Facebook.

Education is available in a variety of formats to help you understand your benefits and prepare you for financial success. MERS provides group meetings at your workplace, 1-on-1 consultations, online webinars, and a gallery of informative videos.

Name Your Beneficiaries

One of the most important things you can do for yourself and your family is to name beneficiaries and keep your information updated. You can update beneficiary and contact information any time by logging into your myMERS account through the MERS website.

Because of the differing vesting and tax requirements of the *defined benefit* and *defined contribution* portions of your plan, you will need to designate beneficiaries separately for each. See below for descriptions:

Beneficiaries for the Defined Benefit Portion

A **Monthly Pension Beneficiary** is one person who would receive a lifetime benefit from the *defined benefit* portion of your plan if you are *vested* and die before you begin collecting your retirement benefits (or if you die as a result of work duties).

If married, your spouse must be named your *Monthly Pension Beneficiary* unless they waive this right in writing.

A **Refund Beneficiary** is a person(s), trust, estate or charity that receives a refund of your employee contributions made to your *defined benefit* portion (plus interest) if you die *before* you are vested.

You'll also be asked to provide *Contingent Refund Beneficiary* in case your Primary is deceased.

Beneficiaries for the Defined Contribution Portion

Primary Defined Contribution Beneficiary would receive your *defined contribution* portion (plus/minus investment performance).

If married, your spouse must be named your *Primary Beneficiary* unless they waive this right in writing.

You'll also be asked to provide *Contingent Beneficiary* in case your Primary is deceased.

Rollovers

A rollover allows you to move your money from a qualified retirement plan into the defined contribution portion of your hybrid plan, consolidating accounts for easier oversight, compounded savings, and the benefit of MERS' low fees.
